Yi Fei Chen

Software Developer

Email: yifeichen92@gmail.com
Github: github.com/yifeichen
Phone: (226)750-8292
Address: Longueuil, Quebec

Skills:

Programming Languages:

- Develop scalable object-oriented software using C++, Java, and Python.
- Design and develop real-time embedded software in C with JTAG-based debugging on ARM microcontrollers.
- Develop and deploy Linux applications using shell scripting and system utilities.
- Build automated testing frameworks to improve software quality and reliability.
- Develop web applications using the Grails framework, RESTful APIs, and SQL databases.
- Develop and maintain secure OTA firmware update systems for internet-connected embedded devices.

Software Development Practices:

- Practice Agile/Scrum with Jira and Confluence for project tracking, sprint planning, and documentation.
- Use Git for version control and Jenkins for CI/CD pipelines.

Languages:
Fluent in English, French, and Chinese

Work Experience:

- Software developer, Gigrow, Montreal QC, February 2020 - Present
  - Maintain and enhance embedded software running on ARM-based microcontrollers.
  - Design and develop embedded applications for sensor data acquisition, monitoring, and fault detection.
  - Collaborate with hardware engineers to integrate and validate new sensors and embedded hardware.
  - Develop unit tests and maintain automated build and continuous integration pipelines using Jenkins.
  - Develop and maintain a web-based system for remote monitoring and management of IoT devices.

Internships:

- Software Developer, RSVP Tech, Waterloo, ON, September-December, 2016
  - Debugged and resolved backend issues in Java applications.
  - Developed Android application prototypes for new product features.
- Software Developer, AppZero, Ottawa, ON, January-April, 2016
  - Debugged and resolved issues in a C++ desktop application.
  - Implemented user interface enhancements to improve usability.

Education:

University of Waterloo

- Master of Applied Science in Electrical and Computer Engineering
  2017 - 2019
- Bachelor of Software Engineering Honours Co-op
  2012 - 2017
